

ADVÉRBIOS DE CAUSA

EXPLICAÇÃO

Em inglês, usamos certas palavras para conectar duas ideias mostrando a causa de algo — ou seja, o motivo pelo qual algo aconteceu. A escolha da palavra depende do que vem depois: uma oração completa (sujeito + verbo) ou apenas um substantivo/pronome.

1. BECAUSE + ORAÇÃO

Usado para dar uma razão direta e é o conector mais neutro e comum.

She stayed home because it was raining.

Ela ficou em casa porque estava chovendo.

2. BECAUSE OF + SUBSTANTIVO/PRONOME

Mesma ideia de "because", mas seguido de um substantivo, não de uma oração inteira.

The match was cancelled because of the storm.

O jogo foi cancelado por causa da tempestade.

3. SINCE / AS + ORAÇÃO

Também introduzem causa, mas soam mais formais e costumam abrir a frase.

Since he was tired, he went to bed early.

Já que ele estava cansado, foi dormir cedo.

As the shops were closed, we couldn't buy anything.

Como as lojas estavam fechadas, não pudemos comprar nada.

4. DUE TO / OWING TO + SUBSTANTIVO

Mais formais, comuns em textos escritos e jornalísticos.

The delay was due to heavy traffic.

O atraso foi devido ao trânsito intenso.

Owing to the pandemic, the event was postponed.

Devido à pandemia, o evento foi adiado.
