

ENVIRONMENT AND SUSTAINABILITY

(Meio Ambiente e Sustentabilidade)

VOCABULARY LESSON

(Atividade de Vocabulário)

WARM-UP & VOCABULARY BUILDING

(Aquecimento e Ampliação de Vocabulário)

1

READ THE KEYWORDS ASSOCIATED WITH THE LESSON'S THEME AND MATCH THEM WITH THE IMAGES THAT FOLLOW.

Leia as palavras-chave associadas ao tema da aula e relacione-as com as imagens a seguir.

CARBON FOOTPRINT

ECO-FRIENDLY

RENEWABLE ENERGY

WASTE MANAGEMENT

BIODIVERSITY

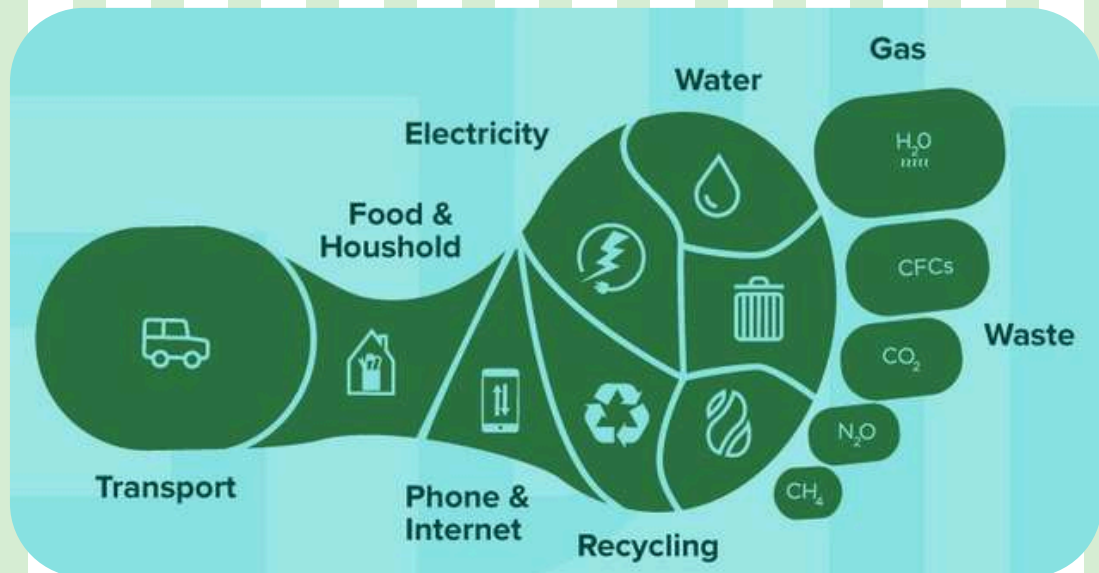

SINGLE-USE PLASTIC

Power derived from natural resources that replenish themselves faster than they are consumed.

Keyword: _____

Palavra-chave: _____

The total amount of greenhouse gases — mainly carbon dioxide and methane — produced by human actions, measured in units of carbon dioxide equivalent (CO_2e).

Keyword: _____

Palavra-chave: _____

Disposable items made from fossil fuels meant to be thrown away after a brief use.

Keyword: _____

Palavra-chave: _____

The complete process of handling waste from start to end.

Keyword: _____

Palavra-chave: _____

READING

(Leitura)

2

READ THE TEXT BELOW, HIGHLIGHT THE KEYWORDS FROM THE PREVIOUS QUESTION, AND WRITE ABOUT THE CONTENT OF THE PARAGRAPH BELOW.

Leia o texto a seguir, destaque as palavras-chave da questão anterior e comente sobre o conteúdo do parágrafo abaixo.

Our daily choices directly impact the planet. From the single-use plastic bottles we buy to the energy

we consume at home, everything adds to our carbon footprint. To protect local biodiversity and fight climate change, we must adopt eco-friendly habits, improve waste management, and invest in renewable energy.

VOCABULARY IN CONTEXT

(Vocabulário em contexto)

3

FILL IN THE BLANKS CORRECTLY WITH THE KEYWORDS MENTIONED IN THE FIRST QUESTION.

Preencha as lacunas corretamente com as palavras-chave mencionadas na primeira questão.

1. Solar and wind power are great examples of _____, as they do not pollute the air.
2. Buying products made from _____ packaging helps avoid polluting our rivers and oceans.
3. Walking or riding a bike to school instead of going by car is a great way to lower your _____.
4. Our community needs better _____, such as having separate bins for organic and recyclable trash.
5. Buying products with minimal packaging and reusing shopping bags are _____ habits.
6. Protecting forests is essential to preserve wildlife and maintain the planet's _____.

ANSWER KEY

(Gabarito)

1

- Renewable energy (Energia renovável)
- Carbon footprint (Pegada de carbono)
- Single-use plastic (Plástico descartável)
- Biodiversity (Biodiversidade)
- Eco-friendly (Ecológico / Amigável ao meio ambiente)
- Waste management (Gestão de resíduos / Lixo)

2

Our daily choices directly impact the planet. From the **single-use plastic** bottles we buy to the energy we consume at home, everything adds to our **carbon footprint**. To protect local **biodiversity** and fight climate change, we must adopt **eco-friendly** habits, improve **waste management**, and invest in **renewable energy**.

Nossas escolhas diárias impactam diretamente o planeta. Desde as garrafas de **plástico descartáveis** que compramos até a energia que consumimos em casa, tudo se soma à nossa **pegada de carbono**. Para proteger a **biodiversidade** local e combater as mudanças climáticas, precisamos adotar hábitos **ecológicos**, melhorar a **gestão de resíduos** e investir em **energias renováveis**.

3

1. Renewable energy
2. Single-use plastic
3. Carbon footprint
4. Waste management
5. Eco-friendly
6. Biodiversity
